January 11, 1886.

Sir,

I recommend Mr. Newlin's proposition of the 9th inst. He called this morning and left the coins with us for examination. He says that after he wrote the letter, he made some inquiries in regard to their value and discovered that he offered two coins worth about $80. for two of our duplicates worth about $12. He therefore desires us to add a half-dollar and dime of 1879 which are duplicates in the Cabinet, the value of which, is not more than five dollars.

I recommend Mr. Newlin's proposition of the 9th inst. He called this morning and left the coins with me for examination.
